Message from the Guest Editors

In recent years, income growth has resulted in an increased consumption of products of higher value in emerging economies, while rising societal and environmental concerns have led to major changes in consumer preferences in developed economies. In particular, young generations are paying increased attention to the social and environmental impacts of food systems. However, the transformation of food systems addresses not only consumer choices but also business strategies. The rise of new technologies brings business innovations, providing consumers with new foods and new distribution channels.

This Special Issue aims to explore these new trends and horizons in sustainable food consumption and to generate advanced understanding of the transformation of food consumption. Special attention will also be paid to research investigating the disruptive power exerted by global public health issues on food choice and sustainability.

an Open Access Journal by MDPI

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
